

# Help us design Bissell 307

A group of students at the Faculty of Information are working to transform Rm 307 into a studio workspace (like a makerspace, but please don't let that term constrain your ideas).

We need your help getting started:

1. Take a few minutes to think about what you could do in a space like this and how you could use it
2. Draw and write your ideas here. You can include tools, people, equipment, communities, concepts, a cup of tea....
3. Hand your sheet back to me, OR drop it in mailbox A20 (Dan S.), OR email it to [jess.whyte@gmail.com](mailto:jess.whyte@gmail.com), OR bring it to our first design session (May 30, 3-6pm in Rm 307).

Your turn: Cereal machine for those who missed breakfast. Bean bags.

- Yes, you can share my contribution with others.
- No, please don't share my contribution.
