

# Help us design room 307

A group of students at the Faculty of Information are working to transform Rm 307 into a studio makerspace. We need your help getting started:

1. Take a few minutes to think about what you could do in a space like this and how you could use it.
2. Draw and write your ideas here. You can include tools, people, equipment, concepts, communities, a cup of tea... *good idea*
3. Hand your sheet back to me, or email it to [jess.whyte@gmail.com](mailto:jess.whyte@gmail.com), or bring it to our first space design session on Thu May 19, 10-12 in Rm 307 (snacks and coffee provided).

Your turn: \_\_\_\_\_
